❑ We have started maintaining the record of Slow Learner from 2014-15. But we never disclose it and motivate them as per their passion for their Self reliancy.

Sometimes it comes below due to duty leave, on duty leave , medical & casual leave.

❑ With B. Com. Degree classes, students are doing value added courses like- CPT –CA or due to employment. So we have to become flexible for their regular attendance.

- ❑ As per scenario of new education policy department has prepared to introduce various skill base courses to change the passion of students in to profession
- ❑ Considering society's view – focused to build their career and educated them with computer aided technology so that they can perform work like – Account writing, BPO, Stock Board, Teaching profession (Ideal for girls), Banking sector. They will become self-reliant and practical adaptability of their education will help them in living their life successfully.

CHALLENGES:

State Government & it's Educational Policies

Society, College & University

- ❑ To make up their mind in proactive thinking for higher education by identifying their passion and get them involve in passion.
- ❑ To improve their results while admitting, they and their family admits thinking that its girls college and they want to get married after graduation and turn their mind for PG courses.
- ❑ In recent years, as we had admitted convent students teaching to them in Marathi and English medium is greater task and all faculty have accepted this challenge and proved successful.
- ❑ Due to introduction of semester system, it is not possible for us to take students outside for study tour and develop their practical vision.
